Community Health Assessment 2025

Delhi Township

Introduction

The WeTHRIVE!^{SM} Community Health Assessments (CHA) paint a comprehensive picture of the community's current and past health status, factors contributing to higher health risks and poorer health outcomes, needs in the community, and community resources available to improve health.

The WeTHRIVE! CHA helps aid community partners, stakeholders and residents in identifying priority health issues, developing goals, and selecting strategies to improve residents' health. The data comes from multiple sources, including surveys, surveillance systems and landscape reviews (see data notes QR code). Using multiple data sources allows for a comprehensive picture of the health of the community. The Hamilton County CHA released in 2025 provides an overview of the health of Hamilton County, while the WeTHRIVE! CHA allows WeTHRIVE! teams to take a deeper dive into their community-specific data.

This report includes the following topics relevant to health and wellness of residents within the community:

- Community Context (who makes up your community)
- Healthcare and Health Outcomes
- Economic Stability
- Neighborhood and Built Environment
- Assets and Opportunities
- Recommendations

"Public health in Hamilton County means working together to ensure that all of our residents have the opportunity to thrive both individually and collectively. When people are healthy, they can lead fuller, happier lives while also contributing to the local economy and culture."

-Greg Kesterman, Hamilton County Public Health, Health Commissioner

WeTHRIVE! Overview

The WeTHRIVE! initiative of Hamilton County Public Health is a paradigm shift that engages communities, and schools and child care providers to make meaningful and sustainable policy, environmental, and system changes where people live, work, learn, and play, ensuring that all individuals have the opportunity to thrive. The WeTHRIVE! initiative works to create a culture of health, safety, and vitality throughout Hamilton County. The four pillars of WeTHRIVE! are:

SUPPORT

WeTHRIVE! Population Health Specialists help start a team, offer assistance, and connect the teams to resources.

DATA

The most up-to-date public health data is shared to help determine areas of need and plan for the future.
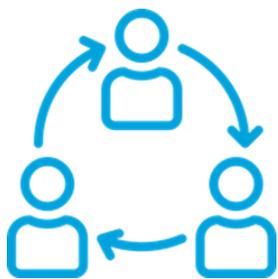

COLLABORATION

The WeTHRIVE! initiative fosters a culture of collaboration by bringing together child care providers, communities, schools, and partner organizations.

RECOGNITION & CELEBRATION

The initiative is all about celebrating the positive progress and changes our amazing teams work so hard to implement.

We THRIVE!℠

Community Wellness in Action℠

WeTHRIVE! CHA Process

As part of data provided to WeTHRIVE! communities, the WeTHRIVE! CHAs are completed every three years to provide an opportunity to take a deeper dive into the annual WeTHRIVE! Data Profiles that are shared with each active WeTHRIVE! community. The WeTHRIVE! CHAs are developed by the Health Promotion & Education and Epidemiology divisions at Hamilton County Public Health. The Epidemiology division reviews and analyzes a variety of data sources that include health, social, economic, and environmental indicators to help paint a picture of the health and wellbeing of a community. To expand on data, the Health Promotion and Education division works with WeTHRIVE! teams to provide community context and lived experiences through the WeTHRIVE! Landscape Review. The WeTHRIVE! Landscape Review looks at community conditions and resources related to the WeTHRIVE! pathways that impact residents overall health by driving/walking around the community to get a visual representation of the community. Together, data is compiled into a list of assets, opportunities, and recommendations that are specific to each community to provide team members with the actionable strategies to promote the health of all residents.

Assets, Opportunities & Recommendations

Community Context , 2023

28,636

Delhi Township Total Population

14,228

Male Population

**14,408**

Female Population
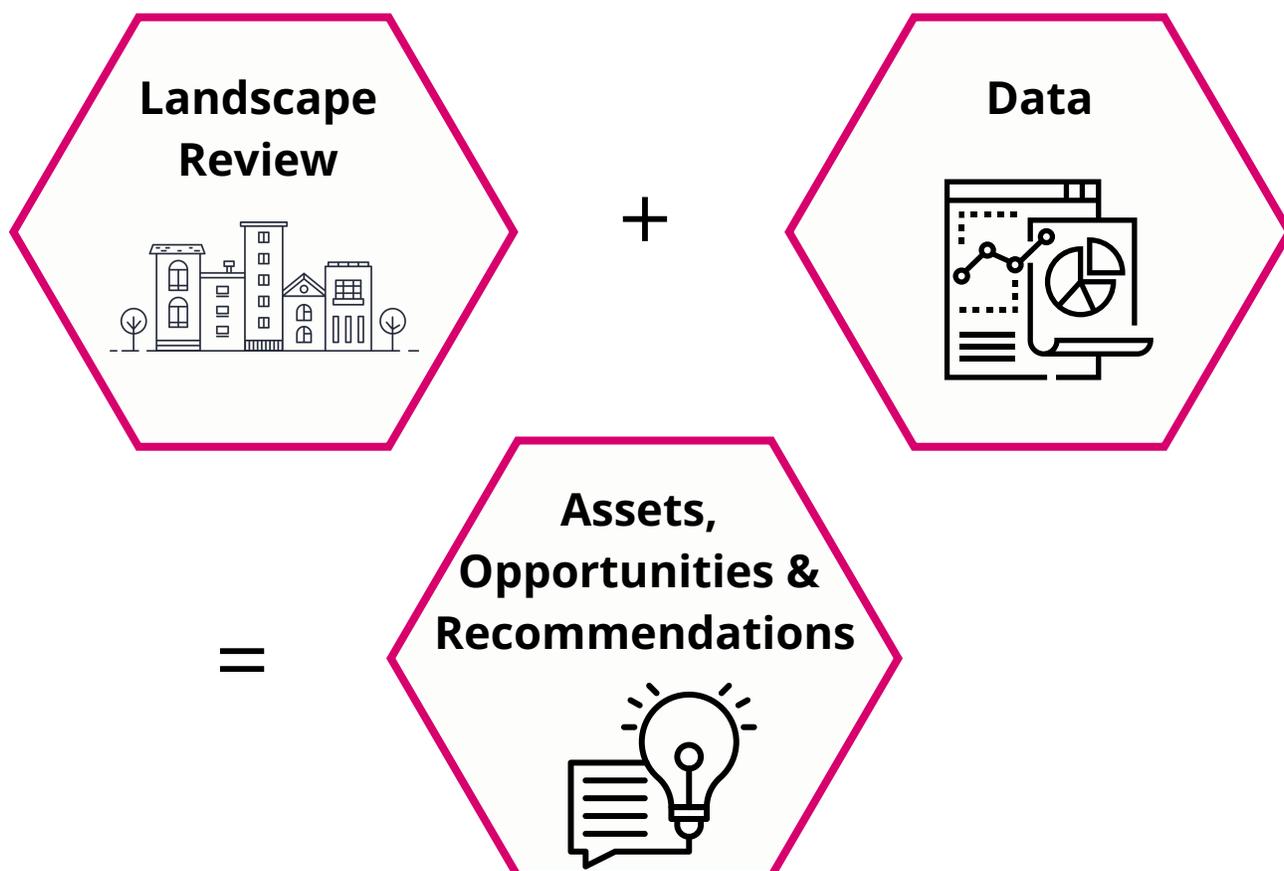

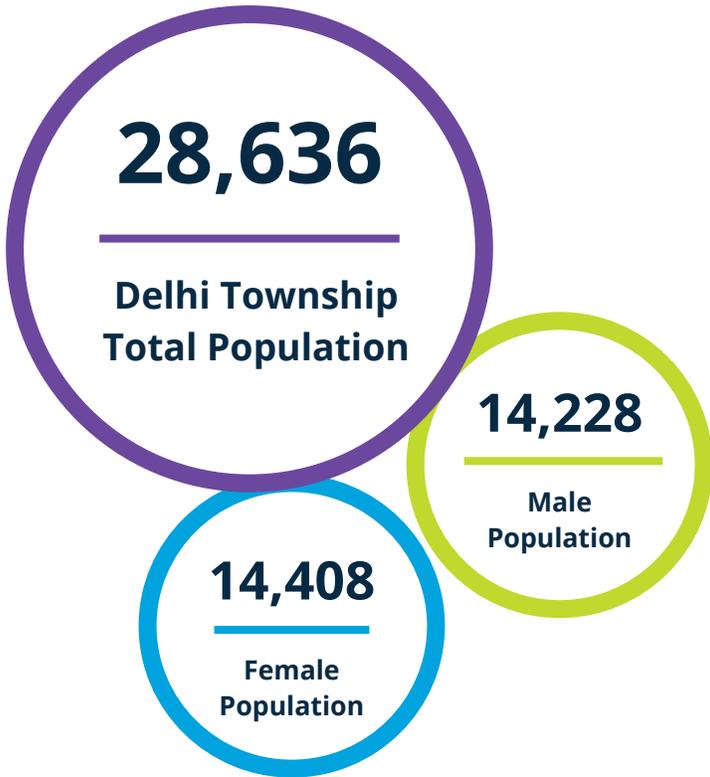

To effectively enhance health outcomes, it's important to comprehend the context in which these issues arise. Understanding the community context is a foundational and vital step in promoting positive health within a community. In this report, community context encompasses population demographics, including age, gender, and race/ethnicity.

Population by Age

Age Group	Percentage
< 18 years of age	24.0%
18-29 years of age	14.5%
30-49 years of age	24.1%
50-64 years of age	19.1%
65+ years of age	18.3%
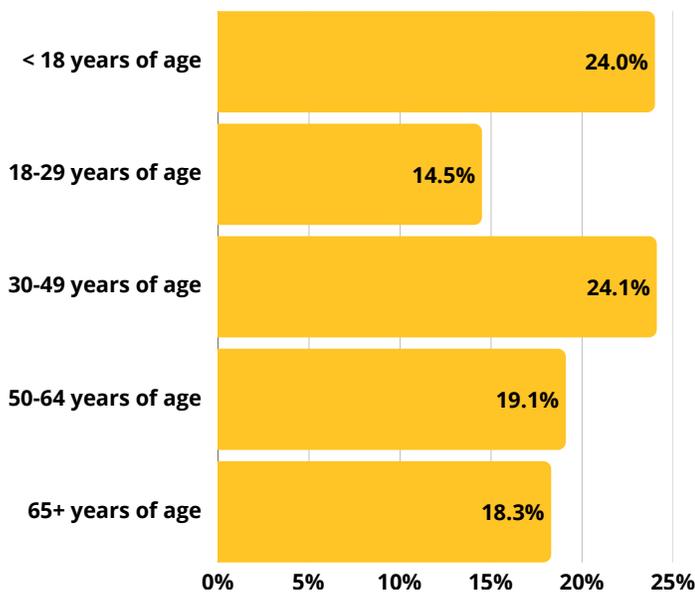

Population by Race/Ethnicity

| Race/Ethnicity	Percentage
non-Hispanic White	87.5%
non-Hispanic Black	5.4%
non-Hispanic Multi Racial	1.8%
non-Hispanic Other Race	4.0%
Hispanic, Any Race	1.3%
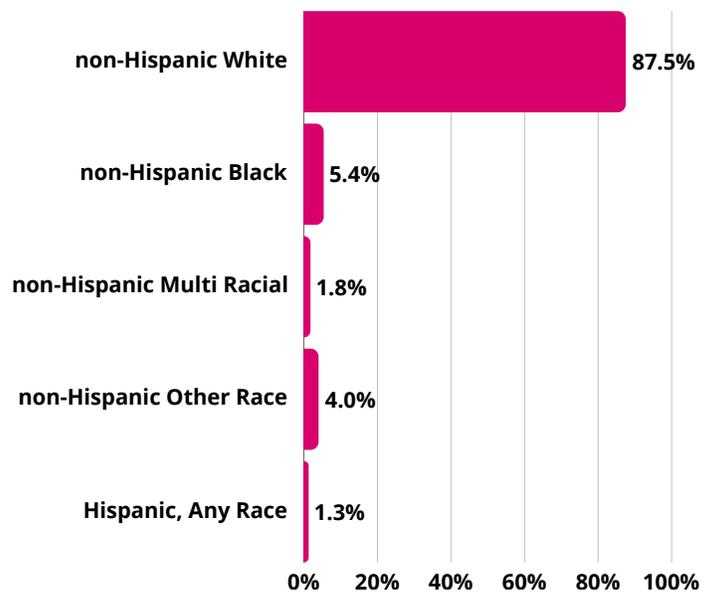

Healthcare and Health Outcomes : 2019 - 2023
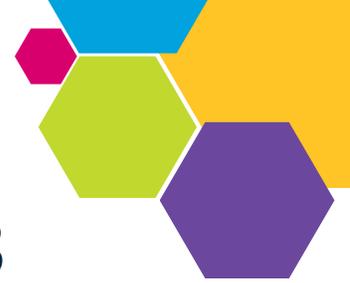

Access to quality healthcare is a major component of increasing quality of life for all people. Barriers to healthcare, such as gaps in health insurance coverage, can delay access to preventative services that can lead to preventable disease and premature death. There are a variety of metrics we can look at to measure the overall health of a community such as mortality rates, uninsured rates, rates of infectious disease, and more. All of these metrics allow us to gain a better understanding of the health needs of the community.

Top Five Leading Causes of Death by Age - Adjusted Mortality Rates (per 100,000)

Cause	Rate
Heart Disease	443
Cancer	391
Accident	153
COVID	110
Stroke	102
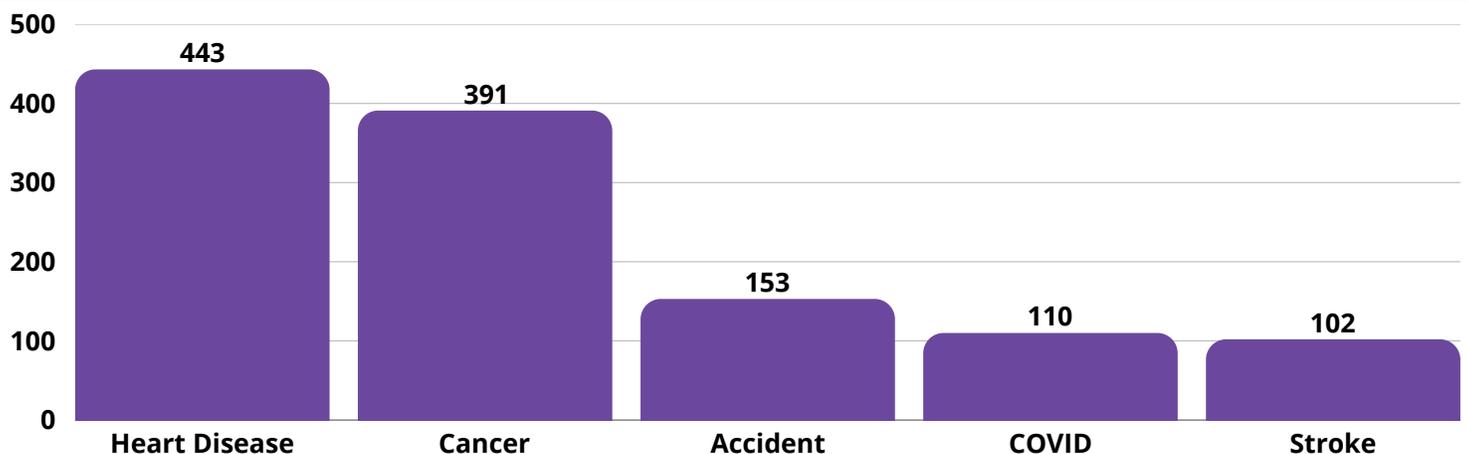

Child Fatality Rate (per 1,000)
0.5 ◆

Infant Mortality Rate (per 1,000)
6.9 ◆

Average Life Expectancy
77.2

Independent Living Difficulty
3.8%
Total population with an independent living difficulty, 2023

Disability Characteristics
**13%** Total population with a disability, 2023

6.8% Child population with a disability, 2023

◆ = less than 20 cases. Please see data notes at end of report for more information on the significance of small numbers.

Healthcare and Health Outcomes : 2019 - 2023

Uninsured

4.2% Total Population Uninsured, 2023

2.3% Children Uninsured, 2023

Sexually Transmitted Infection Incidence Rate (per 100,000)

297 Chlamydia

92 Gonorrhea

14.4 Syphilis ◆

6.9 Newly Diagnosed HIV ◆

11%
Preterm Births
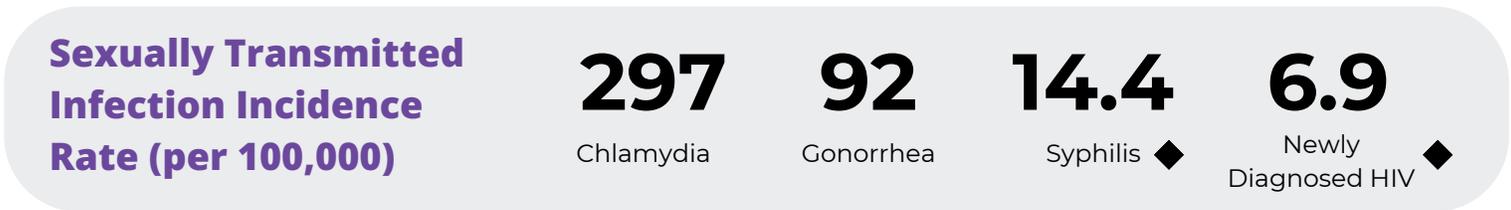

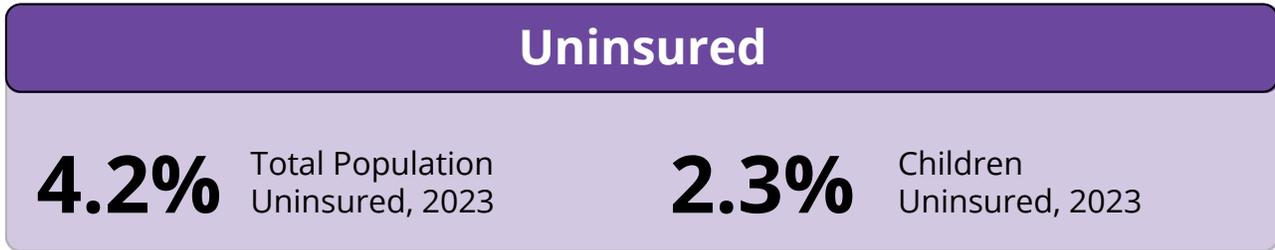

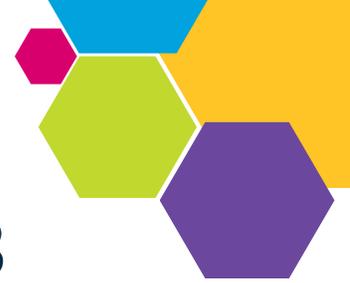

162
Asthma Related Emergency Department Visits, 2023*

999
Overdose Related Emergency Department Visits*

5,348
Naloxone Kits Distributed*

◆ = less than 20 cases. Please see data notes at end of report for more information on the significance of small numbers.

* = This data is ZIP codes that cover Delhi Township. These ZIP codes are: 45205, 45233, 45238
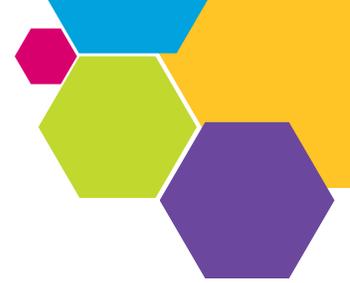

Economic Stability, 2023

The economic stability of individuals within a community can have a lasting impact on the overall health of that community. Economic stability means that individuals have sufficient and reliable income to pay for expenses such as healthcare. Lack of economic resources makes it more difficult for an individual to access healthcare and sustain healthy behaviors. There are a variety of metrics to look at that can measure the overall economic stability of a community such as unemployment rates, household income, rates of households receiving public benefits, and more.

3.3%

Population 16 and Older Unemployed

Poverty

7.2% Total population living In poverty

11% Children living in poverty

Housing

82% Owner - occupied housing

18% Renter - owned housing

SOLD

FOR RENT
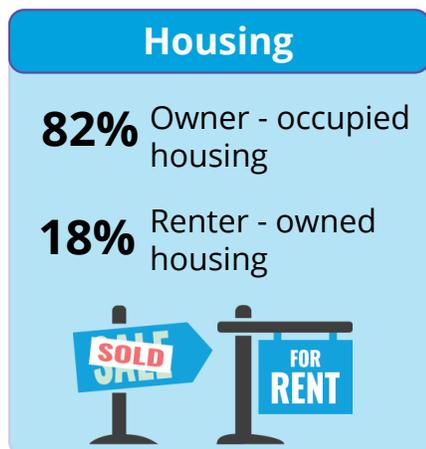

4.7% Households receiving SNAP benefits

Income

$86,058 Median household income

$41,647 Per capita income

Housing Characteristics

21% Residents experiencing a housing cost burden

4.6% Households with no vehicle available
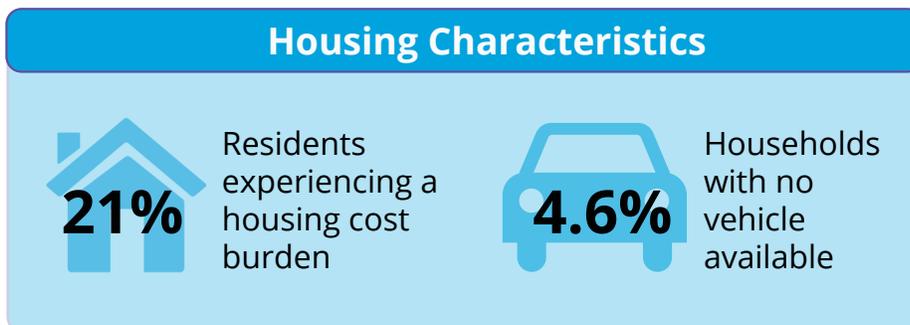

Neighborhood & Built Environment, 2023

The built environment is the man-made space where individuals live, work, and play on a day-to-day basis. This includes buildings, parks, sidewalks, streets, public transportation and other spaces that have been created or modified. It can affect the potential for injuries related to pedestrian and motor vehicle crashes. It can also affect an individual's access to healthy food, recreation opportunities and clean, safe places to work and play.

Motor Vehicle Crashes

0.8% Motor vehicle crashes involving a pedestrian or bicyclist ◆

20% Motor vehicle crashes involving a child or teenager

4.5% Motor vehicle crashes involving drugs or alcohol

0.1% Fatal motor vehicle crashes ◆

0.33

Social Vulnerability Index

Lead Exposure

0.5% Children aged 5 and under with an elevated blood lead level, 2019 - 2023

77% Housing built prior to 1979

Built Environment

79% Ground surface that is green space

Below Average Walkability

Food Access

4.8% Population low-income and over a mile from supermarket, 2019

12 Stores that accept SNAP benefits

92% Households with internet access

6.2% Youth 16-19 who are neither working nor in school

◆ = less than 20 cases. Please see data notes at end of report for more information on the significance of small numbers.

Assets & Opportunities

Assets

- All playgrounds in Delhi Township are smoke-free.

- Delhi Township participates in neighborhood block watch programs.

- The rate of people who are both disabled and uninsured in Delhi is 2.8 times lower than other cities and townships in Hamilton County.

- Overall, Delhi sees lower rates of sexually transmitted infections. The rate of gonorrhea being 1.9 times lower and the rate of chlamydia being 1.5 times lower than other cities and townships within Hamilton County.

Opportunities

- There is no naloxone leave behind program in Delhi Township.

- There are not any designated bicycle lanes or share the road signs in the Delhi Township.

- There are not any idle free zones within Delhi Township.

- The percentage of motor crashes in Delhi involving drugs and/or alcohol is 1.9 times higher than in other cities and townships in Hamilton County.

- There are not currently any breastfeeding-friendly spaces within township owned property.
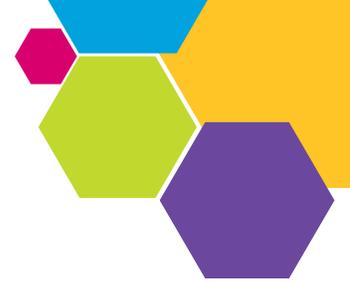

Recommendations

The following recommendations are based on the assets and opportunities identified for your community. The corresponding WeTHRIVE! pathway or pathways for each recommendation are indicated to the right of each recommendation.

= Chronic Disease Pathway

= Injury Prevention Pathway

= Environmental Health Pathway

= Harm Reduction Pathway

= Emergency Preparedness Pathway

= Social Health Pathway

Recommendations	WeTHRIVE! Pathway
Work with Hamilton County Harm Reduction and local police department to implement a naloxone leave behind program when responding to overdose calls, and /or identify local places in the community that have harm reduction supplies in the event of an emergency.	
Work with Hamilton County Planning and Development increase resident safety and access to active transportation by creating an Active Transportation Plan to identify locations for safe bicycling to display Share the Road signs.	
Improve air quality and the health of residents' lungs by implementing idle-free zones at all township-owned properties by partnering with Hamilton County ReSource and Southwest Ohio Air Quality.	
Conduct a traffic study to identify high-risk areas and implement traffic calming measures, such as speed bumps, enhanced signage, or improved lighting to reduce rate of crashes.	
Create a welcoming, breastfeeding-friendly space within tonwship-owned property to ensure mothers have a safe and comfortable area to feed or pump. Once established, add signage and raise awareness among residents about the space.
