FACILITY OVERVIEW

The Steelman closed landfill operated as a C&DD landfill prior to 1997 when rules were established requiring licensing of such landfills. Hamilton County Public Health records for this landfill are limited. The property is located on the Ohio Indiana border and therefore some of the documents are from Indiana agencies. The property is also divided into northern and southern portions by a railroad. Raymond and Diana Steelman

purchased the properties in 1983. It does not appear as though any filling occurred prior to this purchase. Inspection reports from 1992 through 1997 indicate some illegal disposal of solid waste at the site. From the inspection reports it appears the facility transitioned to filling with only clean hard fill sometime in 1997. ODOT aerials showing the location and progression of filling are on the following page.

SITE INSPECTIONS

The site was inspected by HCPH on November 20, 2024. No violations or nuisance conditions were observed on the site.

SITE PRESENT DAY

The property is currently used for material/equipment storage. A single building exists near the northeast corner of the property, but it is vacant. It appears the property may occasionally be filled with clean hard fill.
