FACILITY OVERVIEW

The Geiler closed landfill operated as a C&DD landfill prior to 1997 when rules were established requiring licensing of such landfills. Hamilton County Public Health (HD) records for this landfill are limited. Various members of the Geiler family owned the property from 1965 to 2002. Several inspections of the C&DD landfill were made by the HD from 1993 through 1996. Some of the inspections and letters indicate illegal disposal of solid waste. The site was inspected as a C&DD landfill until 1997 when rules required licensing. A notice of intent to fill was filed with the HD at this time and the facility transitioned to clean hard fill only. However, a complaint investigation in 2000 revealed the property was being filled illegally with C&DD. Visible C&DD was ordered

removed at this time. In 2007 a Lowes store was built on the property. Aerials showing the location and progression of filling from 1973 through 1996 are below.
